We offer customized Payroll Solutions packages for South African Businesses who want to outsource their Payroll administration and save money. Our Payroll team takes care of all your Payroll needs. We offer payroll solutions to small, medium, and large businesses. Our systems are robust and customized to every client's needs.

## *Our Services Include:*

Our administration involves reporting, recording, and submitting all relevant documentation when and where needed

Our reporting system allows accurate recording of all information, providing the client with transparent information at all times. Monthly communication to the client regarding their payroll status and various submissions.

Our dedicated payroll specialists guides clients through every step of the way. Each client is managed by an accounts manager and specialist, ensuring a detailed and accurate payroll function.

We at VATITpayroll understand that no two clients are the same, so why should its payroll packages be?
